I am a retailer that sells Volt and Bloog KR808D-1 Electronic Cigarettes and Accessories and Ego Twist and T3 Clearomizers. I cater to the new and intermediate electronic cigarette user. I have been in business since November, 2011. I do mail order and accept credit cards. I have the small stick style batteries, Volt X2 passthrough fat batteries, eGo Twist batteries, cartomizers, clearomizers, and e-juices. While I do not have a merchant website, I list everything I sell with prices on the Shop Page at <http://selectecigs.com>. I am available to do group meetings. I sell NicQuid E-Liquids and have the flavors and pricing listed on the Shop Page. These e-liquids are the finest quality e-liquids made in the USA. I focus on the user's needs and spend time educating new customers on the use of ecigs and help them determine which solution is right for them. If you have questions, shoot me an email, text, or call. [Click Here to Visit Select Ecigs](#)
