Grey Haze Ecig | E-Cigarette | eLiquid Store, Vaping Spares & Gear! Welcome to Grey Haze, the premier e-cigarette store! We have attempted to compile the best range of e-cigarettes, and e-cigarettes accessories for both the new and experienced vaper. We have carefully selected our ecig stock to reflect not only quality but also price. We feel not everyone can afford to purchase expensive ecig mods and RBAs. We have attempted to source alternatives which we have found to work just as well. At Grey Haze we only sell e-cigarettes and eliquids which we would be happy to vape our selves. For this reason we carefully vet all of our suppliers and ensure they hold relevant safety and hygiene certificates. All of our eliquids are USA made in a lab environment using FDA approved ingredients, unless clearly stated otherwise. If you are a new vaper or simply have questions about our e-cigarettes or eliquids do not hesitate to contact us. Please email us or use the live chat in the bottom right of the window, We will be happy to help you find the right ecig or eliquid!
