

AVAIL Vapor

3224 West Cary Street
23221
United States

Phone: 8043538273

Originating in Central Virginia, the heart of tobacco country, we at AVAIL are well aware of what standards and expectations smokers hold for their tobacco products, because we were once smokers ourselves. Seeking an alternative to traditional smoking, our founding members sought out vapor products available on the market, but were left unsatisfied by the lack of flavor in the liquid and poor performance of the existing devices. Necessity spawns creation and in our case produced AVAIL Vapor. After four years of research and development AVAIL Vapor has developed a signature e-liquid, 100% USA made, and an array of devices that complement the style and functionality required by today's sophisticated consumer. AVAIL's motto, Flavor Reborn, speaks to you the business man, construction worker, teacher, nurse, and mom; a cross demographic appeal culminating in a full line of gender neutral and ladies flavors functioning in complete harmony with our disposable and customizable rechargeable models. Our E-Liquid AVAIL's E-Liquid is mixed in a state of the art pharmaceutical grade facility, under direct supervision of an FDA certified compound chemist. All of AVAIL's E-Liquid is batch and lot tested, and then recorded. We stand behind our product so no one has to stand in front of it.
