

eCigarettes Canada

Ontario
Canada

eCigarettes Canada has been around since 2009 providing premium quality e-cigarette kits, e-liquid or e-juice and accessories and low prices. Models we carry include the KR808D-1 electronic cigarette and the EGO Mini electric cigarette. We also have 14 flavours to choose from and offer a great reward points system where our customer spend money on merchandise but accumulate points which can then be used towards discounting future orders. We offer a 100% satisfaction guarantee or your money back. Our ecigarettes are aimed to please and if a customer has any issues, we will address these issues immediately. Our goal is to have customers that are totally satisfied with their purchase.
