We've been working hard over the last few months revamping the site. For now, we are not selling any nicotine. Sure that sounds crazy but we think e-juice is better in person and it complicates speedy delivery of orders. We now carry a very extensive line of all leading brands and ship same day or next. We accept PayPal for worry free purchases. We offer good clear content to help you choose the right mod or tank for you and carry a huge selection of coils.

E-Cigarette Brands:: Aspire, Atmos, ISmoka, eLeaf, KangerTech, X Vape, Topgreen, Innokin, Cuttwood, Tesla, Horizon
