

Theravape - By Healthcare Professionals

346 Keewatin St
Winnipeg, Manitoba R2X 2R9
Canada

Phone: 1-431-999-8273

In 2013 Theravape was started to bring real health professionals into the world of vaping, to add an extra layer of assurance and safety. Many of our practices from the healthcare world have carried over into how we make our juice and track inventory.

All of our E-Liquid is tested by a third party laboratory to look for harmful diketones like diacetyl. In the medical industry, to prevent medical errors, medicines are two-person batched and recorded so that each bottle can be traced back to it's origin.

E-Cigarette Brands:: Tea House, Smooth-E Juice, Aspire, Smok, Joyetech, VGOD, Asmodus
