

Dampden

England
United Kingdom

We are a team of four people here, at Dampden.com and the site is nearly 5 years old. Before the website was in Danish language, as we mostly served the Scandinavian countries, but when we made it an English language website we did see a huge amount of new customers from all parts of the world.

Our team is Danish - German

We are all vapers and we know how to chose quality vape gear , so you can be sure that you always get original Brand products at Dampden.

When you shop at Dampden You can bee assured that all our products are authentic Brand products.

Please note!

As Dampden is offering vape gear globally we can of course not check the vaping laws of all countries it is up to the customer to check his/hers country laws on import of vaping gear before ordering!

The name Dampden is danish and equal to the English words vape it.

Regards Dan

Dampden
