

Incredibowl Industries

1630 63rd Street
Suite 1
Boulder, Colorado 80301
United States

Phone: 720-239-1492 ext 802

Incredibowl Industries is a Boulder, Colorado company founded in March 2009 on a vision of blending outside-the-box thinking, cutting edge technology, and a devotion to our lifestyle. We started from that foundation, using computer-aided design technology, a blend of CNC manufacturing, hand-made craftsmanship and a brilliant engineering team to develop a piece that will outperform and outlast everything else on the market. An evolving industry deserves an evolved smoking system; we build every Incredibowl with the same passion that fuels our superior customer care and warranty programs to create devices and possibilities that inspire our culture into the 21st century. Over the past 9 years, the original Incredibowl i420, the pocket-sized Incredibowl m420, and their family of add-ons and accessories have become some of the best-selling pieces in the world, selected by fans to win over two dozen international awards and accolades.
